The topics were presented in a clear and understandable manner.	4,0
The trainer encouraged participation, interaction and answered questions clearly.	4,1
The trainer's communication style kept me focused and interested.	4,1
	4,0

The general organization of the event was good as we can see from the average results presented above. The average of the evaluations was 4 in general. Participants highlight all topics were covered sufficiently, the organization and content - connection with experts in different fields of AI, the atmosphere, the high-knowledge of the trainers, their work as they developed within their department a tool for "Process Mining" and "Sentiments Analysis and Data Analytics", the importance of knowing new softwares used for process mining. Participants would like to have a more hands on approach, just to provide some manuals/documentation for the new tools and to provide a practical sessions in order to focus more on the workflow.
