Prof. Fahmi Abu Al-Rub,
Director of the Applied Scientific Research Fund (ASRF)
Professor of Chemical and Biochemical Engineering
Chemical Engineering Department
Faculty of Engineering
Jordan University of Science & Technology

Dear Dr. Fahmi,

Thank you for your continued support to the Center of Excellence for Innovative Projects at JUST. As part of our preparation to partner up with you in the **Elegant project**, I am pleased to let you know that the Center of Excellence hired an IT specialist to be responsible for the project activities.

Eng. Samer Suleiman has a master degree in computer information systems CIS as well as B.S.C in Computer science. He has solid knowledge in computer systems's hardware and wide varieties of software's (applications and systems) through more than 15 years of troubleshooting, configuration, and installation in the computer networks and labs in the IT colleges and departments in both Hashemite University and J.U.S.T.

In addition, he has long experience in the academic field as an IT trainer for a variety of audiences especially the IT students and IT stack-holders with different prospects, ages and skills.

Looking forward to the implementation phase of the project.

Best regards,

Mohannad Aljarrah

Director, Center of Excellence for Innovative Projects
Jordan University for Science and Technology.
