

**Enhancing Teaching, Learning and
Graduate Employability through
University-Enterprise Cooperation**

Meeting of the Liaison Officers

Mohammed Alweshah

Al-Balqa Applied University

30 Sep2020

Co-funded by the
Erasmus+ Programme
of the European Union

The main activities

The main activities of LOs discussed in the last meeting were:

- Establishing contacts with Companies (and if there are already companies linked to the University, formalise these contacts) in order to: arrange placement or internships for students and find experts in the company who can supervise/mentor student projects and offer some seminars at the University.

Partnership with Huawei

- These collaborative efforts are a positive development as it supports our faculty vision towards a knowledge-based economy, in which joint partnership between the academia and the industry is encouraged.
- The objective is to produce well-trained and certified students, who will share the knowledge and hands on experience with their colleagues.

Partnership with Huawei

The following events held within the collaboration between Prince Abdullah Bin Ghazi Faculty of Information and Communication Technology and Huawei.

Date	Event	Goals

Experts from the IT company

- Motivate students to participate in local and international competitions and awards

Questionnaire Designed

- Designed a survey of employers' opinions for students graduated from the computer science program at Al-Balqa University.
- The questionnaire has been designed and the college intends to send it to the big software-production companies that have university graduates in order to know the actual skills and capacity of university graduates.

Thanks
